

Square tube top bend

Nemtek brackets are made to a high standard to maximise security and ensure long life in the field. The level of security achieved is directly affected by the choice of bracket, the number of wires forming the electrical barrier and the distance between the brackets. Nemtek offers a large range of brackets to suit most wall types and applications. They are made from steel and are finished in a high quality outdoor powder coating, or are hot-dip galvanised for coastal conditions. Our factory can manufacture different types of designs and finishes on request.

Specifications:

- Top bend
- 6,8 or 10 wires
- Powder coated finish
- Steel inner core
- 995 mm, 1195 mm or 1 395 mm long
